Phil - Lodge owner

"We came and had a look and we liked it so we bought a lodge instead of a motorhome with also the opportunity to let Hoseasons have it and make some money from it.

We were advised by Hoseasons to have a hot tub in, which we did probably about 3 months later. From the day the hot tub went in, we never stayed at the lodge ever again. It has been a good investment for us and I'd recommend it to most people, it's a good deal.

From our point of view it's a business for us, the lodges are given to Hoseasons Croft Park, they manage it 100%, they just send us a monthly paycheck."
